

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Sharon & Robert Jordan
DOCKET NO.: 04-21613.001-R-1
PARCEL NO.: 10-35-416-047-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Sharon & Robert Jordan, the appellants, by attorney Edwin Wittenstein of Worssek & Vihon LLP of Chicago and the Cook County Board of Review (board).

The subject property consists of a four-year-old, two-story single-family dwelling of masonry construction containing 5,002 square feet of living area and located in Niles Township, Cook County. The residence contains four and one-half bathrooms, a finished basement, air conditioning, a fireplace and a two-car garage.

The appellants' counsel appeared before the PTAB and submitted evidence claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellants offered six suggested comparable properties located within three blocks of the subject. These properties consist of two-story single-family dwellings of masonry construction and range in age from four to 55 years. The comparables have two through five bathrooms with half-baths and full basements, two finished. All homes are air-conditioned and have fireplaces. Five sites have two or three-car garages. The comparables contain between 5,331 and 6,399 square feet of living area and have improvement assessments ranging from \$65,708 to \$89,570 or from \$11.27 to \$14.71 per square foot of living area. Based on this evidence, the appellants requested a reduction in the subject's assessment.

The board submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$82,785, or \$16.55 per square foot of living area, was disclosed. In support of the subject's assessment, the board offered three suggested comparable properties located within a block of the subject. The

comparables consist of two-story single-family dwellings of masonry construction and range in age from one to 50 years. The comparables contain one, two or four bathrooms with half baths, full basements, one finished; two have air conditioning, all with fireplaces and one or two-car garages. Comparable number one is a prorated property with a total improvement assessment of \$99,000. The comparables contain between 2,142 and 5,390 square feet of living area and have improvement assessments of between \$18,272 and \$99,000 or from \$8.53 and \$18.37 per square foot of living area. Based on this evidence, the board requested confirmation of the subject property's assessment.

After hearing the testimony and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellants have not overcome this burden.

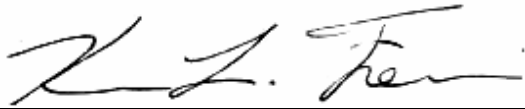

The PTAB finds the appellants' comparables one and three and the board's comparable one are the comparables more similar to the subject. These three properties have improvement assessments ranging from \$12.98 to \$18.37 per square foot of living area. The subject's per square foot improvement assessment of \$16.55 is within this range of properties. The PTAB affords less weight to the remaining six comparables because they are less similar to the subject in living area or age. After considering the differences in both parties' suggested comparables when compared to the subject property, the PTAB finds the subject's per square foot improvement assessment is not supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellants have not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
